

family support program *men's* support worker

The Family Support Program provides a specialist men's support worker to work with fathers, and with families with adolescent boys

what do we do?

- Support fathers to develop an understanding of child development, and basic child care
- Help fathers to develop strong relationships with their children
- Encourage positive ways to manage children's behaviour, and deal with stress in healthy ways
- Provide support through difficult times
- Help parents to understand the developmental needs of boys and young men

This program is funded by the Commonwealth Department of Families, Community Services and Indigenous Affairs
